NHS Project & Change Capability Framework

For Project and Change Professionals and Practitioners in the NHS

SRO Competencies

NHS Project & Change Capability Framework five levels of competency

No.	Level Title	Competency Level Definition
5	Expert	Expert knowledge and experience applied at a high level or in a specialist area - contributing to the profession and teaching others
4	Proficient	Detailed knowledge and experience applied at a medium level of complexity or high level under supervision
3	Competent	Detailed knowledge and experience applied at a low-level complexity or medium level under supervision
2	Practiced	Working knowledge and practical experience of limited complexity
1	Awareness	Basic knowledge and limited or no experience

**The competence profiles are for guidance only and shouldn't be used as an exact measure for a particular role. Achieving the competence profile for a job at a different grade level does not entitle someone to that grade but may enhance their chances when applying for that role. **

The grade level of roles within the Project Delivery Profession is generally aligned with the level of project complexity. Project Complexity is influenced by a range of factors

Projects with a LOW level of complexity are generally characterised by having a high degree of certainty, are smaller in size, have clear stakeholders, and can be managed using standard procedures and methodologies. Projects with a HIGH level of complexity are generally characterised as having a high degree of uncertainty, are large in size, politically sensitive, technically complex, have a large number of stakeholders and often need procedures and methodologies to be adapted to suit unique situations. **

Competency No.	Core Competency	Sub-competencies	AfC Band:		
			8a	8b	8c-9/VSM
1	Project Planning	Planning	1	1	2
		Scheduling	1	2	2
		Budgeting and Cost Management	1	2	3
		Asset Allocation	1	2	3
2	Governance	Business Case Development	3	4	4
		Scope Management	2	3	3
		Frameworks & Methodologies	1	2	2
		Change Control	1	1	1
		Finance, Commercial & Procurement (processes	2	3	3
3	Resource Planning and Management	Project Team selection, capability & onboarding	1	2	2
		Role definition and recruitment	1	1	2
